

SCI HELLAS PRESENT

Umoja-Enosi Football Team

THE FIRST PANAFRICAN F.C.

This is the first panafrikan football team in Greece made up by players from different African countries (Tanzania, Ghana, Burundi, Nigeria, Ethiopia, Somalia, Senegal, Sierra Leone, Comoros).

THE TEAM

They all live in Athens either as asylum seekers, with refugee status, as immigrants or belong to the so-called second generation. The coach, Milala, comes from Tanzania and he has a great experience keeping them in the highest standings of the championship.

HISTORY

The team was set up in 2019 with the help of Josephine Ngendakumana from the Burundian community. They have been playing in the Anexartitio independent league ever since, training three times per week at Galatsi Football ground.

OUR SYMBOLS

UMOJA ENOSI means "UNITY" in Swahili, exactly as Enosi in greek. The logo of the team symbolize with three colors White, Green and Red all of them represent unity, labour peace respectively and connect us to the African continent.

PURPOSE

They are united by the same passion and dream: to achieve a fairer place in local society, to become the 'voice' of those who fall victim to racism, to overcome stereotypes and prejudices, to forget their differences and to communicate between themselves and the wider society.

THE PROJECT

This is an effort for players empowerment and inclusion in Greek society involving people with different cultural, civil, and social ideas in promoting respect amongst them and the community surrounding them as the team itself is multicultural.

SUPPORTERS

Umoja-Enosi has been active in the Farenet (Football Against Racism in Europe) with projects within the Black Lives Matter programme and Football Weeks People.

RESULTS

They are now in their second year of competing in the Anexartitio championship where they reached second place in 2019 (category B1). This year - until the currently lockdown in Greece - they were winning almost all the matches, week by week.

CLOSER TO THE GLORY

About the team there have been written articles in the Greek press and interviews have been given in radio stations while there is interest by documentary producers with international collaborations and video artists.
